Professional Summary

Graduate IT engineer with hands-on experience in machine learning, NLP, and full-stack AI development. Proficient in scikit-learn, TensorFlow, Keras, Python, and LLM frameworks (Sentence Transformers, Hugging Face, Gemini API). Built and deployed two end-to-end AI systems. Certified OCI AI Foundations Associate (Oracle). Targeting fresher roles in Data Science, AI/ML, or Data Analytics.

Technical Skills

ML / AI	scikit-learn, TensorFlow, Keras, Pandas, NumPy, Matplotlib, Seaborn, Sentence Transformers, Hugging Face, NLP, LLMs, RAG, Feature Engineering, Power BI
Languages	Python, JavaScript, SQL (PostgreSQL), HTML/CSS
Frameworks	Flask, Streamlit, Next.js 15, React.js
Cloud / Dev	GCP, Google AI Studio, Firebase, Supabase, Docker, Docker Compose, GitHub, Google Colab

Experience

Data Science Intern · Unified Mentor

Jun – Jul 2024 · Remote

- Built employee attrition classifier using scikit-learn (Random Forest), achieving **82% accuracy**; identified key turnover factors via feature engineering with Pandas and NumPy.
- Designed interactive Power BI dashboards visualizing model predictions against historical sales trends for stakeholder drill-down analysis.

Projects

AI-Powered Anime Recommendation System | Python · Flask · NLP · Sentence Transformers · Next.js 15 · Docker

- Built semantic search engine on a 3,000+ anime dataset using Sentence Transformers to convert natural language queries into vector embeddings, enabling mood/vibe-based discovery
- Implemented sub-50ms cosine similarity search against a pre-indexed vector database for real-time recommendation performance
- Fully containerized with Docker Compose for single-command deployment; cinematic Next.js 15 UI with end-to-end full-stack delivery.

StudySync AI — Personalized Learning Platform | Python · Streamlit · Supabase · Hugging Face · Gemini API

- Engineered AI-powered study companion using Google Gemini 2.0 and Hugging Face Transformers to curate personalized learning playlists from 10,000+ YouTube videos.
- Implemented semantic gap analysis with cosine similarity to identify missing knowledge concepts and guide users' study plans.
- Built generative syllabus feature (Gemini API) that dynamically creates topic breakdowns for any subject in under 2 seconds.
- Full-stack: Streamlit frontend, Python backend, PostgreSQL via Supabase for authentication and data persistence.

Certifications

OCI AI Foundations Associate · Oracle

Dec 2025

Project Management Professional · IBM

Jul 2024

Education

B.E. — Information Technology ·

2022 – 2025 CGPA: **7.73**

Lalbhai Dalpatbhai College of Engineering (LDCE), Ahmedabad

Diploma — Mechanical Engineering ·

2018 – 2022 CGPA: **7.41**

Government Polytechnic Ahmedabad
